

PERFORMANCE OVERSIZE BRAKE DISCS

Effective : 1st February 2010

- Oversize Cross-drilled and slotted performance brake discs for ultimate braking with more than 30% over standard.
- Highest grade cast iron to prevent discs warped - its max. temperature generated is lower than OE discs.
- TUV tested
- Use matching AXT Brake Pads and DOT 5 Brake Fluid for ultimate braking performance.
- NB: Part number is per brake disc kit with all brackets and parts to fit

Efficiency of brake pads deteriorate very fast with high temperatures.

AXT brakes are for street use at max. 300 to 500 degrees. A lot of other factors contribute to good braking, not just brake pads.

Car Make	Car Model	Year	Disc OD	Min Wheel	Part No	Price RM / set
HONDA	Civic ES Fr	2001-2005	320	17 inch	AX.BD 50-108-OS	\$1,280.00
