

VOLKER IRIIDIUM SPARK PLUGS

www.volker-iridium.com

Effective : 1st January 2008

Features

1. Double Tip Racing Technology Iridium Spark Plugs - One strong, solid and high intensity kernel flame
2. 0.5 mm Iridium Alloy centre electrode and 1.0 mm platinum ground electrode
(if both tips are of the same metal, it will act as a catalyst to the fuel additives and might lower the optimum properties of the fuel thus lower engine power output)
3. Extreme Durable - 160,000 km / 2 years warranty (normal road use)
4. 16 times more durable than standard spark plugs - 26% price savings
5. Made in Germany

Benefits

1. Increase engine torque and BHP (up to 4%)
2. Improve fuel economy and easier engine starting
3. Reduce emissions and protect catalytic converters

Price - RM 62.50 per piece all part numbers

Other cars - see Volker Catalogue			
** Not applicable for Nissan Sunny N16			

NB.

1. The gap between the tips are very important for optimum output of each car engine.
2. Please check gap requirements and re-gap spark plugs if necessary.
3. Please do not use any spark plugs if they are dropped! Send back to Speedworks for warranty claims.
4. Tightening torque must be used correctly for all spark plugs installations.
 - 25 Nm tightening torque for gasket seat spark plug
 - 20 Nm tightening torque for taper seat spark plug
